Texas Board of Nursing Bulletin

A Quarterly Publication of the Texas Board of Nursing

The mission of the Texas Board of Nursing is to protect and promote the welfare of the people of Texas by ensuring that each person holding a license as a nurse in the State of Texas is competent to practice safely. The Board fulfills its mission through the regulation of the practice of nursing and the approval of nursing education programs. This mission, derived from the Nursing Practice Act, supersedes the interest of any individual, the nursing profession, or any special interest group.

NCSBN Launches E-Notify Service

The National Council of State Boards of Nursing (NCSBN) announces the launch of Nursys e-Notify, the national nurse licensure notification system that automatically delivers licensure and publicly available discipline data directly to employers as the data is entered into the Nursys database by U.S. boards of nursing (BONs).

Nursys is the only national database for verification of nurse licensure, discipline, and practice privileges for registered nurses (RNs) and licensed practical/vocational nurses (LPN/VNs). It is comprised of data obtained directly from the licensure systems of U.S. BONs through frequent, secured updates.

The e-Notify system alerts subscribers when changes are made to a nurse's record, including changes to license status, license expirations, pending license renewals, and public disciplinary action/resolutions and alerts.

If a nurse's license is about to expire, employers have the option to receive a notification about the expiration date. Employers can also immediately learn about new disciplinary actions issued by a BON for their employed nurse, including receiving access to available public discipline documents. Nursys e-Notify eliminates the need for employers to proactively search for nurse data because they are notified when changes occur.

Nurse employers are able to subscribe to this service to track licensure and discipline information for little or no charge (cost is dependent on the number of nurses enrolled in the system). The first 100 nurses in a facility registered with Nursys e-Notify are free of charge. After that, each nurse is \$1 per year. If an employer has 99 nurses they pay nothing; if they have 200 nurses, the cost per year is \$100.

Kathy Shipp Selected as President of the Board; Kristin Benton Resigns from Board, Accepts BONs Director of Nursing Position; Nina Almasy and Shelby Ellzey Appointed to Board

Kathleen Shipp, MSN, RN, FNP

Nina Almasy, MSN, RN

Shelby Ellzey, BBA

Kristin Benton, MSN, RN

On December 21, 2012, Governor Rick Perry designated Kathy Shipp, MSN, RN, FNP as presiding officer of the Texas Board of Nursing (BON or Board), replacing Kristin Benton, MSN, RN who resigned as President of the BON. Ms. Benton accepted the position of Director of Nursing for the Board, which had been vacant since September 2012. Governor Perry also announced the appointment of Nina Almasy, MSN, RN of Austin to the Board to replace Kristin Benton to represent Vocational Nurse Education. Ms. Almasy is currently employed as an Associate Professor at Austin Community College Vocational Nursing Education Program.

On October 4, 2012, Governor Rick Perry appointed Shelby Ellzey of Midlothian to serve on the Board for a term to expire January 31, 2015. Ms. Ellzey, who will represent Consumers on the Board, replaces Mary Jane Salgado who resigned from the Board in July, 2012. Ms. Ellzey has a Bachelor of Business Administration degree with a concentration in Marketing from Baylor University.

Employers can customize how often they receive notifications and when they want to run reports. Another valuable option is the ability to enter nurse contact information so the employer may send licensure renewal reminders to the nurses directly from the e-Notify system.

Employers can learn more and subscribe to Nursys e-Notify by visiting the Nursys website at <https://www.nursys.com/>. An introductory video and a frequently asked question section concerning e-Notify can be viewed from links on the Nursys home page.

Readers Invited to Comment on *Bulletin* through Online Survey

The Nursing Practice Act (NPA) Section 301.158 requires the Texas Board of Nursing (BON) to disseminate information that is of significant interest to nurses and employers of nurses in Texas. The BON fulfills this statutory requirement through the publication of the quarterly *BON Bulletin* newsletter. The *Bulletin* informs nurses, their employers, and the public of changes in the licensure laws and about matters that pertain to patient safety, nursing education, licensure, and regulation.

The BON invites nurses and the public to participate in a survey to determine the impact of the *BON Bulletin* newsletter. This information will be used to improve future issues of the publication. Please visit the following link to complete the *Bulletin Reader Satisfaction Survey* by February 28, 2013:

Advisory Committee Updates

Delegation Task Force - Chapter 225 relating to Independent Living Environments

The Delegation Task Force, consisting of representatives from various organizations that provide nursing services in community settings and schools, met five times during 2012 to consider and make recommendations to the Texas Board of Nursing (BON) on revisions to Chapter 225, *RN Delegation to Unlicensed Personnel and Tasks Not Requiring Delegation In Independent Living Environments For Clients With Stable and Predictable Conditions*.

During the November 2012 meeting, the Task Force considered expanding the list of Health Maintenance Activities (HMAs) and the list of tasks that registered nurses may delegate in emergency situations. The Task Force recommendations will be presented to the BON for consideration during the January 17th and 18th, 2013 regularly scheduled BON meeting.

The Task Force will reconvene after the 83rd Texas Legislative Session ends in May 2013 to finalize their rule revision recommendations. For more information on the Chapter 225 Delegation Task Force, please contact Bonnie Cone at bonnie.cone@bon.texas.gov or 512-305-6840. To obtain more information on delegation, visit the BON website at www.bon.texas.gov and select *Nursing Practice*, then *Delegation Resource Packet*.

Eligibility and Disciplinary Advisory Committee

The Eligibility and Disciplinary Advisory Committee met on November 30, 2012. The Committee began reviewing the BON Guidelines for Criminal Conduct and expects to meet again in February and March 2013 to continue its review.

The Deferred Disciplinary Advisory Committee concluded its review of the BON Deferred Disciplinary Action Pilot Program on October 1, 2012. The Committee submitted its recommendations regarding the continuation of the program to the BON for its review at the October 2012 Board meeting. The BON's final report regarding the continuation of the program, including the recommendations of the Committee, can be found at www.bon.texas.gov

Summary of Actions

A regular meeting of the Board of Nursing was held October 18-19, 2012, in Austin.
The following is a summary of Board actions taken during this meeting.

In the October 19, 2012 issue of the *Texas Register*, the Texas Board of Nursing (BON or Board) published as adopted amendments to Chapter 214, §§214.1 - 214.13, relating to *Vocational Nursing Education*. Amendments to Chapter 214: clarify existing requirements within the chapter; strengthen the qualifications/requirements for authors of new nursing education program proposals and proposed nursing education program directors; provide for additional oversight over the establishment of extension sites/campuses; provide for additional monitoring of programs that may be categorized as high-risk; and eliminate

outdated and redundant references from the chapter.

The Board also published as adopted amendments to Chapter 215, §§215.1 - 215.13, relating to *Professional Nursing Education*. Amendments to Chapter 215: clarify existing requirements within the chapter; strengthen the qualifications/requirements for authors of new professional nursing education program proposals and proposed professional nursing education program deans/directors; provide for additional oversight over the establishment of extension

sites/campuses; provide for additional monitoring of professional nursing education programs that may be categorized as high-risk; require ADN programs to establish articulation agreements with BSN programs; require professional nursing education programs to include geriatric and end-of-life care in their program content; and eliminate outdated and redundant references from the chapter.

Amended Chapters 214 and 215 became effective October 21, 2012.

Nursing Education Actions - October 2012 Board Meeting

Reviewed Reports on:

Status of Inquiries, Proposals, and Approval Status of New Nursing Education Programs;
Status Report On Programs with Sanctions; and
Communication Activities with Nursing Education Programs.

Approved Reports on:

**Regular Survey Visit:*

Kilgore College Vocational Nursing Education Program in Longview;
Trinity Valley Community College Vocational Nursing Education Program in Kaufman; and
Trinity Valley Community College Vocational Nursing Education Program in Palestine.

**Accepted focused survey visit report with recommendation for change in approval status from Conditional to Full Approval:*

University of Houston – Victoria in Sugarland: Baccalaureate Degree Nursing Education Program; and

Del Mar College in Corpus Christi: Associate Degree Nursing Education Program.

**Accepted report for consideration of approval for replication of an innovative pilot project:*

Tarleton State University Baccalaureate Degree Nursing Education Program in Stephenville, in Collaboration with Weatherford College Associate Degree Nursing Education Program in Weatherford.

**Accepted report of Notification of Closure of Nursing Education Program:*

Houston Baptist University in Houston: Associate Degree Nursing Education Program.

**Accepted report of consideration of change in approval status from Conditional to Initial Approval:*

Texas State Technical College, West Texas in Brownwood, Texas: Associate Degree Nursing Education Program.

**Accepted report of consideration of change in approval status from Initial with Warning to Initial Approval:*

Fortis Institute in Grand Prairie: Vocational Nursing Education Program.

**Accepted Update on Status of:*

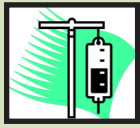

American Medical Institute in Houston Vocational Nursing Education Program.

Proposal to Establish A New Nursing Education Program Texas A & M University Commerce in Commerce, Texas Baccalaureate Degree Nursing Education Program:

The Board voted to grant initial approval to Texas A&M University Commerce to establish a new Baccalaureate Degree Nursing Education Program in Commerce, with an initial cohort of 30 students per year and a continuing annual enrollment of one cohort of 30 students, to begin in Spring 2013, based upon the proposal and survey visit.

LVN's and IV Therapy- Did you know....

There are a number of documents to assist LVNs with scope of practice questions available on the Texas Board of Nursing (BON) website (www.bon.texas.gov) in *Nursing Practice* then *Scope of Practice*. The Position Statements are also accessible in a link on the *Nursing Practice* page of the BON website. One of the Position Statements specially addresses IV Therapy. When LVNs expand their skills to include IV therapy or phlebotomy, they are encouraged to keep a copy of their training certificate because the BON does not keep track of whether an LVN has completed an IV validation course. If you are looking for IV validation courses, as referenced in Position Statement 15.3, LVNs Engaging in Intravenous Therapy, Venipuncture, or PICC Lines, the BON does not keep a list of approved providers. However, you may wish to check with your local nursing education programs as some of them may offer an IV validation course. The lists of approved nursing education programs may be accessed on the BON website in *Nursing Education* by selecting the link to *Approved Programs*.

Practice Q & A: Is IV Therapy Within a LVN's Scope of Practice?

The Board of Nursing (BON or Board) receives numerous phone calls and emails related to intravenous (IV) therapy and the licensed vocational nurse (LVN) scope of practice. Often times, Board staff is unable to answer these types of scope of practice questions with a simple “yes” or “no” because what may be within one particular LVN’s scope of practice may not be within another LVN’s scope of practice. Each LVN has a different background, experience, knowledge, and competency and must use sound nursing judgment when deciding to accept a particular assignment or perform a procedure [Board Rule 217.11 (1) (T)]. The different levels of licensure and education also affect scope of practice. The licensure level of the LVN is different in that the LVN’s practice is a directed scope of nursing practice under the supervision of a registered nurse (RN), advanced practice registered nurse (APRN), physician, physician assistant, podiatrist, or dentist [Nursing Practice Act (NPA) Sections 301.002(5), 301.353, and Board Rule 217.11(2)]. Differences in education are also an important consideration for determining whether IV therapy is within the LVN’s scope of practice.

The basic educational curriculum for the LVN does not mandate the teaching of principles and techniques of insertion of peripheral IV catheters or administering IV medications. In addition, LVN schools are not required to teach the principles and techniques related to maintaining patency and performing dressing changes of central venous catheters (Board Position Statement 15.3). However, completion of on-going, informal continuing nursing education and on-the-job training in the LVN’s area of practice serves to develop, maintain, and expand the LVN’s level of competency (Board Position Statement 15.27). Post licensure instruction and skills evaluation related to LVNs performing insertion of peripheral IV catheters and/or administering IV fluids and medications as prescribed by an authorized practitioner may allow a LVN to expand his or her scope of practice to include IV therapy (Board Position Statement 15.3).

The Six-Step Decision-Making Model for Determining Nursing Scope of Practice is a valuable tool for all nurses that assists them in considering the steps necessary

to determine scope of practice. The model consists of six reflective questions that require a “yes” or “no” answer. A “no” answer at any step means the activity in question is not within the nurse’s scope of practice. Using this model will assist nurses in the development of clinical reasoning which is important when making decisions about nursing scope of practice. The model requires nurses to review the NPA, Board Rules, Position Statements, employment policies and procedures, and the nursing literature in order to make sound judgments regarding patient safety and safe nursing practice.

The Six-Step Decision-Making Model can be applied to the question, “Is IV therapy within the LVN scope of practice?” **Step One** asks the LVN to review the NPA, Board Rules, Position Statements, Guidelines, and Frequently Asked Questions (FAQs). With this particular question, the LVN should review the Definition of Vocational Nursing [NPA Section 301.002 (5)], Supervision of Vocational Nurse [NPA Section 301.353], and Standards of Nursing Practice [Board Rule 217.11] to determine if IV therapy is addressed in these areas. The NPA and Board Rules do not address this specific question; however, the Board has Position Statement 15.3, LVNs Engaging in Intravenous Therapy, Venipuncture, or PICC Lines to guide LVNs when determining their scope of practice related to IV therapy.

Other laws and regulations outside of the NPA and Board’s Rules specific to a particular practice setting may also affect the LVN’s scope of practice. All nurses are required to know and conform with the NPA, Board Rules and Regulations as well as all federal, state, or local laws affecting the nurse’s current area of practice [Board Rule 217.11(1)(A)]. For example, the Department of State Health Services regulates hospitals and the Department of Aging and Disability Services regulates home health. These agencies may have additional rules and regulations that nurses must follow. After reviewing this information, if there is nothing found that prohibits LVNs from performing IV therapy skills, the LVN answers “yes” and moves to the next step. If any of the information reviewed prohibits the act, the LVN answers “no”. This means the LVN should stop and not proceed with the assignment because it is not within the LVN’s scope of practice.

Step Two asks if the act is appropriately authorized by a valid order and in accordance with current policy and procedures. Educational preparation of the LVN includes common medical diagnoses, medications, therapies, and treatments; therefore, it is the Board’s opinion that LVNs are educationally prepared to administer medications and treatments as ordered by a legally authorized practitioner, and monitor, document, and report the client’s response to those medications and treatments (Board Position Statement 15.25). If the LVN is considering administering IV medications, the LVN must know the rationale for and effects of the medications and correctly administer those medications [Board Rule 217.11(1)(C)]. The LVN is also required to accurately and completely report and document the client’s status, nursing care rendered, physician, dentist, or podiatrist orders, administration of medications and treatments, and the client’s response [Board Rule 217.11(1) (D)]. The LVN must clarify any order with the practitioner that the LVN has reason to believe is inaccurate or contraindicated [Board Rule 217.11(1)(N)].

During this step, the LVN must also determine if the facility or agency where he or she currently works has policies and procedures in place that permit LVNs to perform IV therapy, i.e., administer IV push medications, hang blood, start IVs, or change IV dressings. The ability of the LVN to administer certain medications or IV fluids is up to facility policy (Board Position Statement 15.3). Policies and procedures will be different depending on the practice setting. What may be allowed in one setting or facility may not necessarily be allowed in another. Knowing how to access and being familiar with the current employment policies and procedures is the LVN’s responsibility and plays a pivotal role in determining the LVN’s scope of practice. After reviewing this information, if the LVN answers “yes”, he or she moves to the next step. If the LVN answers “no”, this means the LVN should stop and not proceed with the assignment because it is not within the LVN’s scope of practice.

Step Three asks if the act is supported by positive and conclusive data from nursing literature, research, and or evidence-based practice standards. The LVN should consider if a national nursing organization has issued

IV Therapy - continued from previous page

a position statement, guideline, or standard supporting LVNs engaging in IV therapy. Examples of nursing organizations that may be helpful during this step include the Intravenous Nurses Society (www.ins1.org) and the League of Intravenous Education (www.lite.org). After reviewing this information, if the LVN answers “yes”, the LVN may move to the next step. If the LVN answers “no”, this means the LVN should stop and not proceed with the assignment because it is not within the LVN’s scope of practice.

Step Four asks the nurse if he or she personally possesses current clinical competence to engage in IV therapy. The LVN must determine if he or she has current competence to engage in IV therapy. In this situation, current competency is based on how often the LVN performs IV therapy skills in order to remain competent. All nurses have a duty to promote a safe environment for their patients, and therefore, must consider the safety of the patient when answering this question [Board Rule 217.11(1)(B)]. When deciding to accept an assignment or perform a procedure, the LVN is responsible for ensuring that the standards in Board Rule 217.11 can be met. If the answer is “no”, the LVN should stop and not proceed with the assignment.

Step Five asks if the act is within the accepted standards of care that would be provided in similar circumstances by reasonable and prudent nurses with similar training and experience. It is important for the LVN to consider whether an untoward event or reaction that occurs as a result of the act can be resolved through nursing action alone [Board Rule 217.11(1)(M)]. If the LVN must seek medical intervention for the patient due to an untoward reaction, then the activity is not within the LVN’s scope of practice.

Step Six asks the nurse if he or she is prepared to assume responsibility and accountability for the act. This question is very important and each LVN must always first consider the safety of the patient when making decisions whether or not to perform IV therapy skills.

It is the Board’s opinion that the LVN may not engage in IV therapy related to peripheral or central venous catheters, including venipuncture, administration of IV fluids, and/or administration of IV push medications *until* the LVN has completed an

Six-Step Decision-Making Model for Determining the LVN Scope of Practice

This decision-making flowchart was developed by the Board of Nursing (BON or Board) staff to assist LVNs in making sound judgments about the nursing tasks or procedures they choose to undertake. It references parts of the Nursing Practice Act (NPA) and Board Rules, and asks the LVN to apply other questions to his/her specific practice situation. These same sections of the nursing laws and targeted questions are tools board staff utilize when nurses call and ask “Is this task/procedure in my scope of practice?” ALVN always has a duty to his/her clients/patients to assure that they are safe. One of the most important actions a LVN can take toward that goal is making sure that he/she only accepts those assignments for which the LVN has the education, training, and skill competency. Physical and emotional ability can also impact a nurse’s ability to maintain client safety when accepting an assignment. The BON does not maintain that this is the only model a nurse may use for assistance in determining his/her scope of practice in a given situation; however, all nurses practicing in Texas must comply with the NPA and Board Rules as they apply to LVNs, RNs, and/or RNs with advanced practice authorization in a given role and specialty.

Step One: Is the act consistent with the Texas Nursing Practice Act (NPA)? Do the Board’s Rules or positions statements address this specific act? (*This may be all the information you need to make your decision.*) If *not*, continue to the next step.

The following information available on the BON’s web page may be of assistance:

- NPA, Sec. 301.002(5), Definition of Vocational Nursing & Sec. 301.353, Supervision of Vocational Nurse
- Standards of Nursing Practice (Board Rule 217.11)
- Unprofessional Conduct Rule (Board Rule 217.12)
- Documents listed under “Scope of Practice” in the Nursing Practice Section on the BON web site.
- BON Position Statements, Guidelines, & Frequently Asked Questions (FAQ’s)

If *NO*, the act is **NOT** within your scope of practice;
If *YES*, continue to the next step.

Step Two: Is the activity appropriately authorized by a valid order when necessary, and in accordance with current policies and procedures? Clarification of the order(s) should be sought as needed [Rule 217.11(1)(N)].

If *NO*, the act is **NOT** within your scope of practice;
If *YES*, continue to the next step.

Step Three: Is the act supported by positive and conclusive data from nursing literature, nursing research, and/or research from a health related field (such as evidence based practice standards)? Has a national nursing organization issued a position statement, guideline, or standard supporting LVNs, engaging in this practice?

If *NO*, the act is **NOT** within your scope of practice;
If *YES*, continue to the next step.

Step Four: Do you personally possess current clinical competence to perform the task safely from knowledge acquired in a basic nursing education program, post-basic program, or continuing education program? Documentation to validate competency should be maintained in accordance with agency/facility policy and procedure. Each LVN is also encouraged to maintain his/her own copies of competency forms.

If *NO*, the act is **NOT** within your scope of practice;
If *YES*, continue to the next step.

Step Five: Is the performance of the act within the accepted “standard of care” which would be provided in similar circumstances by reasonable and prudent LVNs who have similar training and experience? An additional related question to ask is: If an untoward event/reaction occurs as a result of your nursing actions, can the untoward consequences/reaction be resolved through nursing intervention alone?

RN Rule 217.11(1)(A) requires the LVN to “know and conform to the Texas Nursing Practice Act and the Board’s Rules and Regulations as well as all federal, state, or local laws, rules or regulations affecting the nurse’s current area of nursing practice.”

Review of the applicable rules in their entirety is recommended for the LVN in this step of the six-step model. In addition, human, material, and equipment resources can vary greatly across the spectrum of possible practice settings, and may contribute to the nurse’s decision in a given circumstance.

If *NO*, the act is **NOT** within your scope of practice;
If *YES*, continue to the next step.

Step Six: Are you prepared to accept the consequences of your actions?

If *NO*, the act is **NOT** within your scope of practice;
If *YES*, then:

Perform the act—based upon valid order when necessary, and in accordance with appropriately established and current policies and procedures; and assume accountability for provision of safe care.

ACKNOWLEDGMENTS: Kentucky State Board of Nursing; Florida State Board of Nursing; North Carolina State Board of Nursing; National Council of State Boards of Nursing; Ohio Board of Nursing Newsletter, 11/94; Pennsylvania State Board of Nursing, March 18, 1992; ANA, Professional Standards of Practice; Nevada State Board of Nursing; “Determining Your Scope of Practice,” Paper prepared by Barbara Quick, BS, RN, Masters, 12/94 Student, UT Austin, Fall, 1994.

IV validation course that includes knowledge and skills applicable to IV therapy. The Board does not define or set the qualifications for the course or IV certification. It is also the Board’s opinion that the insertion of peripherally inserted central catheter (PICC) lines is beyond the scope of practice for LVNs [Board Position Statement 15.3].

Board staff encourages LVNs, RNs, and APRNs to utilize the Six-Step Decision-Making Model anytime there is a scope of practice question regarding accepting an assignment or performing a procedure. All

nurses have a duty to intervene or advocate on behalf of their patients when safety may be jeopardized [Board Position Statement 15.14 and Board Rule 217.11(1)(B)]. Utilizing the Six-Step Decision-Making Model can assist every nurse in meeting this duty.

The Six-Step Decision-Making Model for Determining Nursing Scope of Practice has been modified for the LVN to include the definition of vocational nursing and the supervision requirement for LVN practice [NPA Section 301.002(5) and 301.353].

Don't Miss Your Mail!

In this age of emails, text messages, and even Tweets, it is easier than ever to stay connected with friends and family. As a nurse, you also need to stay connected to the Texas Board of Nursing (BON or Board) for license renewal notices, continuing education opportunities, changes to Board rules and regulations, and all other official BON correspondence. But often in life, circumstances change, new opportunities arise, and you may find yourself moving to a new home or job. When this happens you can be certain the junk mail will follow, but in the chaos of moving, don't forget to change your Address of Record with the Board.

This is important to protect your license. The BON is required by law to send official documents and notices to your Address of Record. The Board uses your Address of Record for handling administrative issues and reminding you to renew your license. The BON also uses your address for other matters. If a complaint is ever filed against your license, an investigation may be opened by the BON. If this happens, you will be notified by mail. An investigation could result in the BON seeking a disciplinary action against your license. Under the Board's Rules, failing to respond to Board notices, or failing to appear at a scheduled hearing, will probably result in your license being revoked for at least one year. And imagine, the only reason you didn't respond or appear was because you never got the notices in the mail. Even if your license is in delinquent or inactive status, or if you are practicing outside of Texas, the Board can still take action on your license and privilege to practice.

Board Rule 217.7(b) requires you to notify the BON within **10 days** of any address change, and failing to do so is a violation of the Board Rules. It is easier than ever to change your address. Follow these simple steps:

Step One:

Send your change of address **in writing** via e-mail, letter, or fax to the BON.

Step Two:

Include the following information in your notification:

1. Name;
2. **NEW** address;
3. License Number OR last four digits of your Social Security Number and Date of Birth.
4. Primary state of residence -

the state of your declared fixed permanent and principal home for legal purposes; domicile.

Step Three:

Mail, Fax, or E-mail the information:

1. Mail to:

**Licensing Department
Texas Board of Nursing
333 Guadalupe, Suite 3-460
Austin, Texas 78701**

OR:

2. Fax to (512)305-7401, **OR**;

3. E-mail to:

changes@bon.texas.gov

(This e-mail address is **ONLY** for address changes).

Your official Address of Record must be at a reliable address that is checked frequently. Changing your address doesn't help if you are never there to receive the mail. The BON sends complaint notices to you by First Class Mail with "Return Receipt Requested". The Post Office requires that someone be present at your Address of Record to sign and verify receipt of the mail. The Post Office will leave a notice if no one is home, but then you must go to the Post Office to pick up your mail. Far too often, mail is returned to the BON because nurses simply don't pick it up from the Post Office. A failed attempted delivery often results in the BON moving forward with disciplinary action against a nurse's license, including revocation of the license.

Remember, once the BON receives notice of your new address, it may be **ten working days** before the change becomes effective. To be safe, don't forget to have your mail forwarded from your old address.

Ensuring the BON has your current address protects your valuable nursing license. The potential consequences of not receiving important notices are very real, but following the above steps will ensure that you receive important notices from the Board. Not sure if your address change is effective? Contact Customer Service at (512) 305-6809. Staff can verify the change of address and answer any questions you may have.

What Nurses are Reading

Nursing requires a lifelong commitment to continual learning, and one way to do that is by reading. Some nurses read professional journals, some read textbooks, some read for enjoyment, but all of us read something. Board staff thought it might be interesting to see what nurses are reading. Through recent web searches, we found out.

Professional articles found in numerous nursing journals contain a wealth of information and are a great source of up-to-date evidence to support nursing practice. Journals usually require subscriptions, but you may also access articles via online web subscriptions such as Medscape. Medscape may be accessed at www.medscape.com.

Medscape recently reported that their most read articles in 2012 included:

1. When is Gossip a HIPAA Violation?
2. The Loss of Empathy in Nursing Education
3. Why Hospital Workers Should be Forced to Get Flu Shots
4. Help Me Make it Through the Night (Shift)
5. Who Has a Right to Take Photographs of Nurses

The Institute of Medicine's website is a great resource for current evidence-based information, not only in nursing but healthcare in general. Their reports may be accessed at <http://www.iom.edu/Reports.aspx>. You may subscribe to them and receive daily updates. The Institute of Medicine reported that their most frequently read reports were:

1. The Future of Nursing: Leading Change, Advancing Health (October 5, 2010)
2. Best Care at Lower Cost: The Path to Continuously Learning Health Care in America (September 6, 2012)
3. Crossing the Quality Chasm: A New Health System for the 21st Century (March 1, 2001)

Yes, nurses actually read textbooks. A frequently read text on leadership is ***Beyond Leading and Managing. Nursing Administration for the Future*** by Dr. Pat Yoder-Wise & Dr. Karren Kowalski and is available for purchase online. Another frequently read text is ***School Nurse Administrators: Leadership and Management*** by Carol C. Costante which also may be purchased online at https://portal.nasn.org/members_online/members/

What are you reading? We would like to hear from you. Please let us know by visiting this link:

IMPOSTER WARNING

If you have any knowledge or information regarding the employment practices of the following individuals, please contact the Board's Enforcement Division immediately at (512) 305-6838.

MARISSA HATHCOX **AKA: MARISSA O'DEA**

Marissa Hathcox, aka: Marissa O'Dea secured employment as a Registered Nurse (RN) with a facility in Irving, Texas, on January 9, 2012. Ms. Hathcox did not provide an RN license for her file upon employment. On May 30, 2012, a staff member reported that Ms. Hathcox had been working as a RN without a license. Attempts to verify her license on the Board website were unsuccessful and Ms. Hathcox was suspended until she could provide licensure information. Ms. Hathcox was not able to provide verification of licensure and was terminated from employment. The case was referred to the Dallas Police Department, Dallas, Texas.

SUSAN ELAINE BOYCE **AKA: SUZANNE PITTS, AND SUZANNE JOHNSON**

Susan Elaine Boyce, aka: Suzanne Pitts, and Suzanne Johnson, was indicted on September 6, 2012 by a federal grand jury, Eastern District of Arkansas, Little Rock, Arkansas, on charges arising out of an alleged scheme to pose as a Registered Nurse. Ms. Boyce received a seven count indictment, with five counts of wire fraud, one count of aggravated identity theft and one count of misuse of a social security number. Ms. Boyce used the Arkansas Nursing License and social security number belonging to another person to obtain employment as a school nurse in Searcy, Arkansas, where she worked from 2007 through 2012. A warrant was issued for the arrest of Ms. Boyce who is currently on the run and the federal investigative agencies believe she has fled the state of Arkansas. Tips on Ms. Boyce's whereabouts should be directed to the fugitive hotline for the Office of the Inspector General for the US Department of Health & Human Services at (888) 476-4453.

U.S. Registered Nurses (RNs) Encouraged to Contribute to National Workforce Research

In January 2013, the National Council of State Boards of Nursing and the Forum of State Nursing Workforce Centers will conduct a national survey of RNs to collect vital workforce data. A random sample of U.S. RNs with active RN licenses will be chosen to participate. Nurses who receive the survey are strongly encouraged to complete the survey, even if they are now employed in another profession or are retired. All responses will be kept confidential and data will only be reported in the aggregate. Those RNs selected to respond to this survey have a unique chance to contribute to this invaluable study, potentially impacting the future of nursing and health care delivery.

TPAPN Advocate Workshop Set to Take Place in April 2013

The Texas Peer Assistance Program for Nurses (TPAPN) Advocate & Faculty Liaison Workshop will be held April 5 & 6, 2013 at:

Norris Conference Center
2525 West Anderson Lane, Suite 365
Austin, TX 78757

Phone: (512) 451-5011

The Saturday morning guest speaker will be Jason Powers, M.D., Medical Director of The Right Step. Please visit the TPAPN website for registration information: www.tpapn.org.

NURSING EDUCATION.....(512) 305-6816

The purpose of the *Texas Board of Nursing Bulletin* is to disseminate information to nurses licensed by the State of Texas, their employers, health care providers, and the public concerning laws and regulations established by the Texas Board of Nursing related to the safe and legal practice of nursing. The *Texas Board of Nursing Bulletin* provides information on current issues and trends in nursing regulation, status of nursing education programs, information regarding licensure and nursing practice, and disciplinary action taken against licensees who violated the Nursing Practice Act.

Office Hours and Location

The Office of the Texas Board of Nursing is located in the William P. Hobby Building, located at the corner of 4th and Guadalupe in downtown Austin. The mailing address is: 333 Guadalupe, Suite 3-460, Austin, Texas 78701-3944. Office hours are 8:00 a.m. to 5:00 p.m., Monday through Friday, except for designated holidays.

The Texas Board of Nursing is an equal opportunity/affirmative action employer and does not discriminate on the basis of race, color, religion, sex, national origin, age, or disability in employment or in the provision of services, programs, or activities.

The *Texas Board of Nursing Bulletin* is published quarterly by the Texas Board of Nursing. In compliance with the Americans with Disabilities Act, this document may be requested in alternate formats by contacting the Board's office, (512) 305-7400 (Voice), (512) 305-7401 (FAX), or by visiting the William P. Hobby Building, 333 Guadalupe, Suite 3-460, Austin, Texas.

Do you need to change your address?

Notification of change of address as required by Rule 217.7 can be completed by any of the following methods:

Mail: Texas Board of Nursing
333 Guadalupe, Suite 3-460
Austin, Texas 78701-3944;

E-Mail: webmaster@bon.texas.gov;

or

Fax: Texas Board of Nursing
at (512) 305-7401.

Notifications must include:

1. RN or LVN License Number;
2. Last four digits of Social Security Number;
3. Old and New Addresses;
4. Name; and
5. Primary State of Residence

NOTICE OF DISCIPLINARY ACTION

The following nurses had disciplinary action taken against their licenses. If you would like to receive additional information regarding the disciplinary action that has been imposed, please send your written request to the Texas Board of Nursing, Enforcement Division, 333 Guadalupe, Suite 3-460, Austin, Texas, 78701-3944.
